EDUCATION

Bachelor’s Degree in Business Information Systems (BIS)

Thebes Academy – Cairo,
Egypt

GPA: 3.05
Expected Graduation: [2026]

EXPERTISE

- Effective Communication
- Teamwork
- Presentation Skills
- Fast Learner
- Researcher
- Multitasking

LANGUAGE

- Arabic
- English

SUMMARY

Fourth-year Business Information Systems student with hands-on experience in Excel, SQL, Power BI, Python, and Tableau fundamentals. Built interactive dashboards, cleaned and modeled multi-source datasets, and translated raw data into clear business insights. Seeking a Data Analyst internship to apply analytical skills in a real-world environment and support data-driven decision-making.

PROJECTS

Sales Dashboard

2025

- Built an interactive dashboard to analyze multi-year sales performance by region, product category, and sales channel.
- Identified Sub-Saharan Africa as the most profitable region and Cosmetics as the highest-margin category.
- Revealed Q4 as the top-performing quarter and surfaced insights to support channel optimization and strategic planning.

E-Commerce Sales Insights Dashboard

2025

- Designed a dashboard to track sales performance across categories, regions, states, cities, and sales representatives.
- Cleaned and modeled multi-source data to improve consistency, accuracy, and reporting quality.
- Identified Technology as the top-performing category, highlighted California and New York as the most profitable markets, and flagged an approximately 8% return rate.
- Added interactive slicers and filters to improve usability and support faster analysis.
